DR. MODY'S CORNER

Hello,

Hope everyone is coping with this virus as good as one can. Still we are not out of the woods yet. Please be safe and keep everybody around you safe.

January 2022 CMC will have served Barren County for 20 years! We will celebrate years of making a difference for so many in our community.

For last couple of years Community Medical Care has been thinking about its future and to join hands with another charity with a similar mission for a better long term plan.

We feel we have found the best partner to join hands with—T.J. Community Mission Foundation. Most of you know about its mission and Shanti Niketan hospice home. Many of you are good supporters of Community Medical Care and T.J. Community Mission Foundation .

After lots of thoughts and discussion, we have decided to merge with T.J. Community Mission Foundation from 01/01/2022.

I feel it will be a good thing for both charities for a good future to serve our community and continue to make a difference for our seniors, for our patients and their families, for years to come.

Thanks so much. I appreciate the support you have given over the years. Together, we will still continue to make a difference.

Take Care.

Enjoy the holidays safely.

Dr. Mody

Thank you to all our volunteers!

Community Medical Care coordinates SOS pickups for locations here n Glasgow, for supplies not needed locally. Pictured is Charles loading supplies from the CMC office on N. Race Street.

Gently used supplies can be donated. Call CMC's office at 270-659-0229 and schedule a delivery. The donation will be available for anyone local in need and if not used by next pick-up time it will be sent to SOS. We do not except any liquids or medications.

Did you know that *literally* tons of medical supplies **go to waste** every year in the U.S.? Yet, *every one* of those new and unused items has the capacity to help **enhance and save lives!** .

Delivering a World of Health & Hope

SOS (SOS) is a Louisville, Kentucky-based nonprofit organization that meets **critical health care needs** in medically impoverished communities around the world by collecting and distributing surplus medical supplies and equipment. **SOS promotes environmental stewardship**, partnering with hospitals and others to recover and send what would otherwise go to landfills.
