Hello,

DR. MODY'S CORNER

Hope everyone is well. We all are going through a difficult time, some more than others because of covid-19.

We are not over the hump and now because of Delta Variant, sliding back slowly.

Many are skeptical about the protection from vaccine. Please give second thought and give serious consideration for vaccination.

Vaccination will not only benefit you, it will protect others around you and will slow down the spread as well so we can together get over the hump. Please, make a difference by getting vaccinated.

Thank you so much.

Take care. If we can be of some help, let us know.

Take Care

Dr. Mody
